

# **Creating contexts for Learning in Technology Education**

Edited by Howard Middleton  
Griffith University

# CONTENTS

Foreward.....	i
Editorial Review Board .....	ii
Constitution of an Information Ethics Instruction Model Based on Personal Traits .....	1
Tetuya Bando & Jun Moriyama	
Are the T and E Dimensions Being Recognised in the Australian Stem Education Discourse? .....	8
John Barlow & David Ellis	
The Unified National System: Implications for NSW Technology Teacher Education .....	15
John Barlow	
Assessment in Design and Technology: An Analysis Of Teachers' Practices. ....	23
Chandan Boodhoo & John P. Williams	
Transforming Challenges in Design + Technology Teaching: a case study .....	31
Ron Corso & Anna Brown	
Demographic and Experiential Predictors of Conceptions of Technology and Science Education: What's Important in Teacher Ed? .....	40
M. G. R. Courtney, K. Lee, A. McGlashan, M. Toso & P. Neveldsen	
Using International Exchange Opportunities to Promote Acquiring "Knowledge of the Situation" Necessary to Cultivate Engineers' Morality among High School Students .....	46
Shinichi Endo & Toshiki Matsuda	
Design and Technology Teachers need to become the Pied Pipers of Engagement and Inclusion .....	55
Lillian Everitt & Eddi Pianca	
Framing Processes of Technology Education Students .....	63
Nigel B Goodwin	
STEM Pedagogies: Provoking Ideas through an Investigation of the Technologies Australian Curriculum .....	71
Kathryn Grushka & Genevieve Mosely	
On the Issue of Abstraction in Relation to Education .....	79
Steve Harfield	
The Idea of Silence in Relation to Teaching and Learning .....	87
Steve Harfield	
Bridging Teaching and Learning in Technology Education .....	95
Eva Hartell	

Using a Design Technology Project as the Basis for Improving Student Understandings and Attitudes .....	103
Ryan Healy & Coral Campbell	
Teaching and Learning Australian Indigenous Knowledge .....	112
Michael Hromek	
Three Dimensional Printing as a Way to Create an Engaging and Meaningful Context for Learning .....	120
Wendy Jobling & George Aranda	
Design Talk: Discussion as Development .....	127
Richard Kimbell	
A Review of the Australian Curriculum: Technologies Contexts and Connections .....	135
Julie King	
Outcomes to Reach Feminist Goals for Technology Education .....	143
Vicki Knopke	
Design, Technologies and Industry Partnerships .....	150
Denise MacGregor & Bruce White	
Technological Ways of Viewing and Thinking: What is it and how can it be cultivated? ...	158
Toshiki Matsuda .....	
Technology Education: Providing Strategies for Creative Learning or: Doing More than Making, Shaking and Breaking .....	167
Howard Middleton .....	
The Impact of a Learning Experience Outside the Classroom on the Creative Design Solutions of Five-Year Old Students in Technology Education .....	175
Louise Milne .....	
Teachers' Strategies for Supporting Students' Problem Solving in Project-Based Technology Education .....	183
Jun Moriyama, Yusuke Satou, Masaaki Nishi, Keita Sera, Naotaka Hagimine & Tetuya Bando	
Proposal of Learning Method that Leads to Optimal Design in Technology Education .....	192
Norihiro Mukaida & Chikahiko Yata	
A Comparison of Student's Attitude towards Information Education among Junior and Senior High Schools in Japan, Korea, China and Slovenia .....	200
Ayaka Murakami, Takenori Motomura, Jun Moriyama, Kazuhiro Sumi, Toshikazu Yamamoto & Yuji Kudo	
Identifying and Reducing Iteration Deficit in Product Design Projects .....	208
Anton Nemme & Roderick Walden	

Managing Constraints in Design Projects to Encourage Making, Iterative Design and a Deeper Learning Experience .....	216
Berto Pandolfo	
Rich Learning Contexts, Big Design Challenges: Placing Relevance and Agency at the Core of Learning and Teaching Design and Technology .....	223
Kay Stables	
An Examination of Control Programming Learning in Japan Based on System and Design Thinking .....	236
Kazuhiro Sumi, Toshikazu Yamamoto, Akira Kikuchi & Yuya Hirakawa	
Design-Led Innovation for Learning and Assessment in Food Education .....	246
Angela Turner	
Textile Zeitgeist: Real-World Learning Opportunities in Textiles and Design Technology .	252
Belinda von Mengersen	
From STEM to STEMaker Education: A deliberation on the purpose and promise in Hong Kong context .....	260
Kin Kwok Wan & Alan, Ka Lun Wong	
Learning through Research .....	269
P John Williams	
Current Points of Contention on Technology Education in the Next Revised National Curriculum in Japan .....	276
Sadato Yamazaki, Masataka Isobe, Yasumasa Oomori & Tomohiro Ueno	
Historical Development and Perspectives of Technology and Vocational Education in Japan .....	284
Tsunetaka Yokoo, Masao Uesato & Kyoko Uesato
